

GENEVA MOTOR SHOW 2015 INTRODUCING THE LAND ROVER DEFENDER CHELSEA WIDE TRACK

Kahn Design's stand at the 2015 Geneva Motor Show will feature one of the most popular vehicles from their Chelsea Truck Company brand, the Chelsea Wide Track Defender 90.

Based on Britain's most iconic 4 x 4, the Land Rover Defender has been given a wealth of enhancements by the Chelsea Truck Company team.

From the distinctive X-Lander front grille to the branded spare wheel cover at the rear the Land Rover has been transformed from a rugged off roader to a stylish urban explorer. A complete colour change to Volcanic Rock Satin ensures the Chelsea Wide Track Defender stands out from the crowd.

Front and rear wide wings with integrated vents and bolt apertures give the Defender a more aggressive silhouette, complemented by a replacement bumper with integrated lights and aluminium sump guard. Subtle additions include LED diamond bright headlamps, stainless steel bonnet and side vents, stainless steel quad exhaust system, and tinted privacy glass.

A set of custom designed wheels are complemented by painted brake calipers and mud flaps.

The interior boasts front GTB sports seats and rear folding seats, hand trimmed in the Chelsea Truck Company's UK workshop, in quilted and perforated leather and Harris Tweed trim, with matching upholstery to the centre glove box.

Additional Harris Tweed trim adorns the rear door panel, roof grab handles, passenger dashboard top and grab handle, instrument binnacle, door panels and rear passenger knee protectors. Machined aluminium foot pedals and stainless steel door sill plates add to the luxury feel.

The Chelsea Truck Company offers a full customisation service for the Land Rover Defender, with a wide choice of exterior paint colours, and a range of interior leathers and fabrics.

The exterior styling components and enhancements, interior seating, components and trim and the lightweight alloy wheels are each available for purchase separately.

The Chelsea Wide Track Defender 90 will be available to view at the Geneva Motor Show 2015 at the Kahn Design stand, Hall 6, Stand 6338.

The Chelsea Wide Track Defender 90 is available from £39,875 (UK Retail Price)

The vehicle as presented at Geneva is priced at £79,875 (UK Retail Price) / CHF 112,700 / EUR 108,000
