

The Ultimate G-Wagon by HOFELE

HOFELE-Design the German specialist Atelier for the enhancement of Mercedes-Benz has released details of their latest model based on the G-Wagon – The Ultimate HG, and it features unique “Coach Doors”.

- Rear “Coach” Doors
- Bespoke Exterior Styling
- Full Length Electrically Deployable Side Steps
- Ultra-Luxurious Interior with Individual Rear ‘VIP’ Seating

Designed to be the toughest of 4x4’s the Mercedes-Benz G-Wagon is also a much-loved alternative to the world’s most luxurious Saloons and Limousines, and they are not likely to venture to far off-road. The new Ultimate HG by HOFELE is certainly in this alternative luxury Limousine category.

The unique rearward opening Coach Doors provide rear seat passengers with a much-improved ease of entry and exit, which is further complimented by HOFELE’s Full Length Electrically Deployable Side Steps and individual VIP rear seating, this G-Wagon is for those who want to arrive in their own unique style.

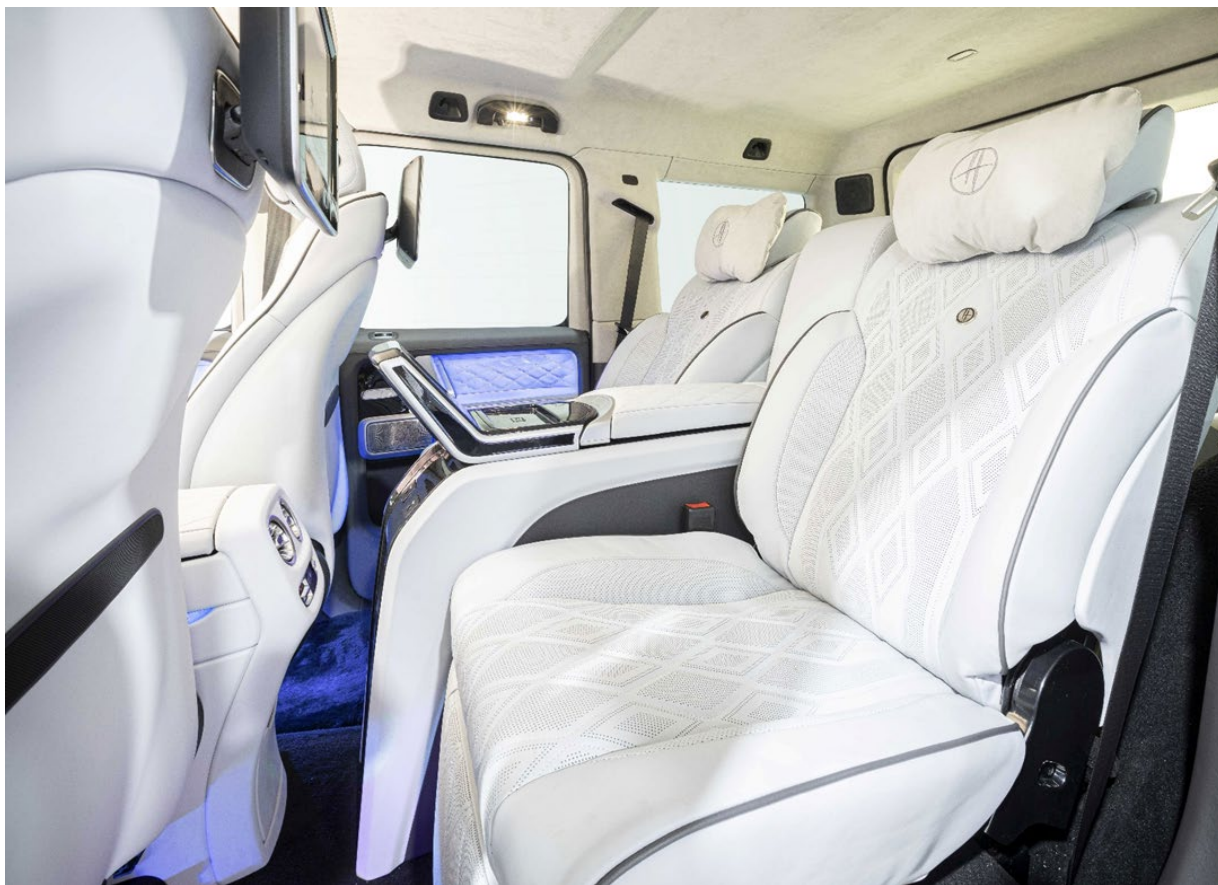

The Ultimate HG by HOFELE features a newly designed front grille, headlight surrounds and a front bumper that wraps around to the wider multi-contoured wheel arches manufactured in carbon fibre. The G-Wagon's iconic waistline trims are finished in chrome and highlight the bespoke 'side-by-side' door handles.

Further HOFELE exterior enhancements include the roof mounted light bar, stunning 23" HOFELE Turbine forged alloy wheels and a bespoke two-tone paint finish in Carpathian Grey by Range Rover over Crystal Black by Rolls Royce.

The interior of the Ultimate HG has been transformed by HOFELE, the finest Nappa leather hides and Alcantara in two shades of grey enhance every surface and are finished with unique perforation and stitching designs.

The individual rear VIP seats feature multiple adjustments, massage, heating and ventilation functions all controlled via the touchscreen control integrated within the bespoke centre console that includes a wireless charging feature.

The HOFELE enhancements continue throughout the vehicle, even the luggage compartment has received attention to detail with the visible boot floor beautifully finished in piano black lacquer with aluminium trim.

The Ultimate HG by HOFELE - a 4x4 SUV / Limousine crossover, a bespoke ultra-premium motorcar that for a few will become an expression of their individual style.
