

***For Immediate Release - HOFELE - May 2021***

To meet the growing demand from the many customers asking HOFELE for special and uniquely enhanced vehicles, HOFELE is expanding the capabilities of its BESPOKE program and the results can be seen with this latest version of the Mercedes-AMG G 63. Limitless possibilities when it comes to the world of bespoke Mercedes-Benz automobiles by HOFELE.

## **HOFELE HG 63 'LIMITLESS'**

- Unique one-off with extensive use of exposed Carbon fibre
- Bespoke 'HOFELE Mandarin Orange Leather & Alcantara interior'
- New HOFELE bespoke bonnet 'Power Dome'
- HOFELE 24" Cross Spoke forged alloys finished in Grey Shadow Gloss

The latest creation by HOFELE showcasing the "individual style" chosen by its owner is this HG 63 'LIMITLESS', which is finished in Bespoke HOFELE Mandarin Orange Leather & Alcantara interior.

The owner of this particular Mercedes-AMG G 63 was very clear in what he wanted and worked closely with the HOFELE team to make sure he achieved this totally unique "1 of only 1" special G-Wagon. The design brief given included the extensive use of exposed Carbon fibre for both the exterior and the interior and a dramatic and contrasting colour for the interior.

The enhancement of this G 63 starts with the HOFELE wide-arch exterior styling package which includes the HOFELE redesigned front bumper finished with high gloss Carbon trim. The addition of the new HOFELE bespoke bonnet 'Power Dome' and wheel arch mounted side vents are seen here for the first time. The exterior paint finish is the G 'Manufaktur Citrine Brown Magno' which is already a bold statement, on this G 63 it looks stunning with the contrasting gloss Carbon styling enhancements.

The exterior design is completed with the signature HOFELE 24" Cross Spoke forged alloys finished in Grey Shadow Gloss and as we have seen before on other G-Wagons by HOFELE; the full-length electric sidesteps that uniquely operate in conjunction with the G 63's side mounted exhausts and provide much wanted ease of access.

The interior is where the owner of this special G 63 really shows off his style, with his choice of “HOFELE Mandarin Orange” for the fully trimmed Nappa leather and Alcantara interior. The unique stitching and perforation pattern is the latest variation of the original HOFELE designs. Extensive use of quality high gloss Carbon trim can be seen throughout and continues the theme of Carbon elements of the exterior.

The Mercedes-Benz G-Wagon has always been a “must have” for the world’s wealthiest car lovers, this G 63 by HOFELE will look good parked next to your collection of ultra-premium automobiles.
